

PARENTESIT

arper

Parentesit

Parentesit is a collection of decorative modular wall panels that offers comfort for contemporary shared spaces.

The bold, graphic forms are available in three shapes—a circle, a square or an oval—that can be further customized with the addition of a speaker or ambient light, to create a visual element that is as functional as it is modern.

Parentesit Wall Panel is a collection of decorative modular acoustic wall panels available in the round, square or oval shape. Also featuring the added functionality of light and/or audio in the wall panel — the electrified version is not available as an acoustic panel — Parentesit creates integrated technology on a human scale — Soft Tech at its essence.

Designer

Lievore Altherr Molina, 2014

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context.

Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.
