

BOND
Easy Chair
& Easy Armchair
By Jean-Marie
Massaud

PRODUCT INFORMATION

Bond is an easy chair designed by Jean-Marie Massaud. The name Bond refers to the possibility to concatenate and create a friendship bond with someone. This sums up the thought behind the product. Its simple and soft form invites people to meet. The design is minimalistic not to take focus from the individual. The elegant, modern cut and the clean form are modest yet have a self-evident attitude. Bond fits just as well in meeting room as in the lounge or the living room. The easy chair has the form of a softly cupped square. Massaud wanted to create the illusion of an object that is floating and that moves with ease. The easy chair has a construction of laminated material in the seat and back resulting in a chair that follows the movement of the body, which together with the cupped seat provides for a very good comfort. With its timeless design it is made to last long.

“The thought behind Bond was to create an inviting piece of furniture that did not claim too much attention but still had attitude. Everything is thought through in detail - the proportions, the quality in the lines. Bond does not need to prove anything. It is simply self-evident. It is everything you are”, says Jean-Marie Massaud.
