PRODUCT INFORMATION

Blocks is a sofa system with maximum flexibility and with a clear reflection of French designer Christophe Pillet's design philosophy.

"This is a very calm design with a lot of focus on making the seating and backrests as soft and comfortable as possible. Blocks is based on a system that lets the user repeat and add on sections as desired", explains Christophe Pillet.

"This sofa system carries the same elegant and functional DNA as all Christophe Pillet designs and we believe this sofa system will function very well in all kinds of meeting places and contexts", says Anders Englund, Design Manager, Offecct.
