

Algue

Ronan & Erwan Bouroullec, 2004

vitra.

Algue

Algues are interior design components and decorative elements at one and the same time. Reminiscent of plants, the plastic elements can be linked together to form weblike structures – from light curtains to densely solid room dividers. Algues are available in seven different

colours and sold in packages of 25. One package creates a light mesh structure of approximately 1 square metre.

Materials

- **Material:** injection-moulded plastic.
- **Items per package:** 25 pieces (approx. 1 m²).
