# Combo Deluxe

Design: Pia Wallén

Combo Deluxe is a system of hanging sound absorbing panels with decorative jewelry.

The flexible and discreet wire suspension allows the panels to be hung at different heights. Also, the panels and the jewelry can be combined in different ways, thanks to the different sizes and materials.

Absorption

## Measurements WxHxD (mm)

Panels:  
600 x 1350 x 10 mm  
600 x 2000 x 10 mm  
1000 x 2000 x 10 mm

Jewelry:  
Multi-circles  
Circles  
Ellipses  
Big

## Materials and Sustainability

The panels have been developed in three different materials:

- Felt made from recycled PET
- Soundfelt REC BM, recycled PET and textile waste
- Ecolin, made from renewable raw and biodegradable material

The jewelry, in five different shapes is made from painted/plated metal sheets.

## Tips from Abstracta!

Experiment with different arrangements and change things around. Create your own visual effect!
