## AV/VC One

### Designer

Colebrook Bosson Saunders

AV/VC One is an easy-to-use audio and visual support unit. It supports the digital equipment people need for remote conferencing, presentations, collaborative review, or displays and signage. This cost-effective setup accommodates up to two monitors with a camera, giving meeting participants a better view of each other, the room, and presented material. With high-capacity media storage capability and an optional front shelf, AV/VC One conveniently houses a range of technology elements with the flexibility to move from place to place, empowering a variety of demanding AV or VC activities.
