Up to 99 percent recyclable

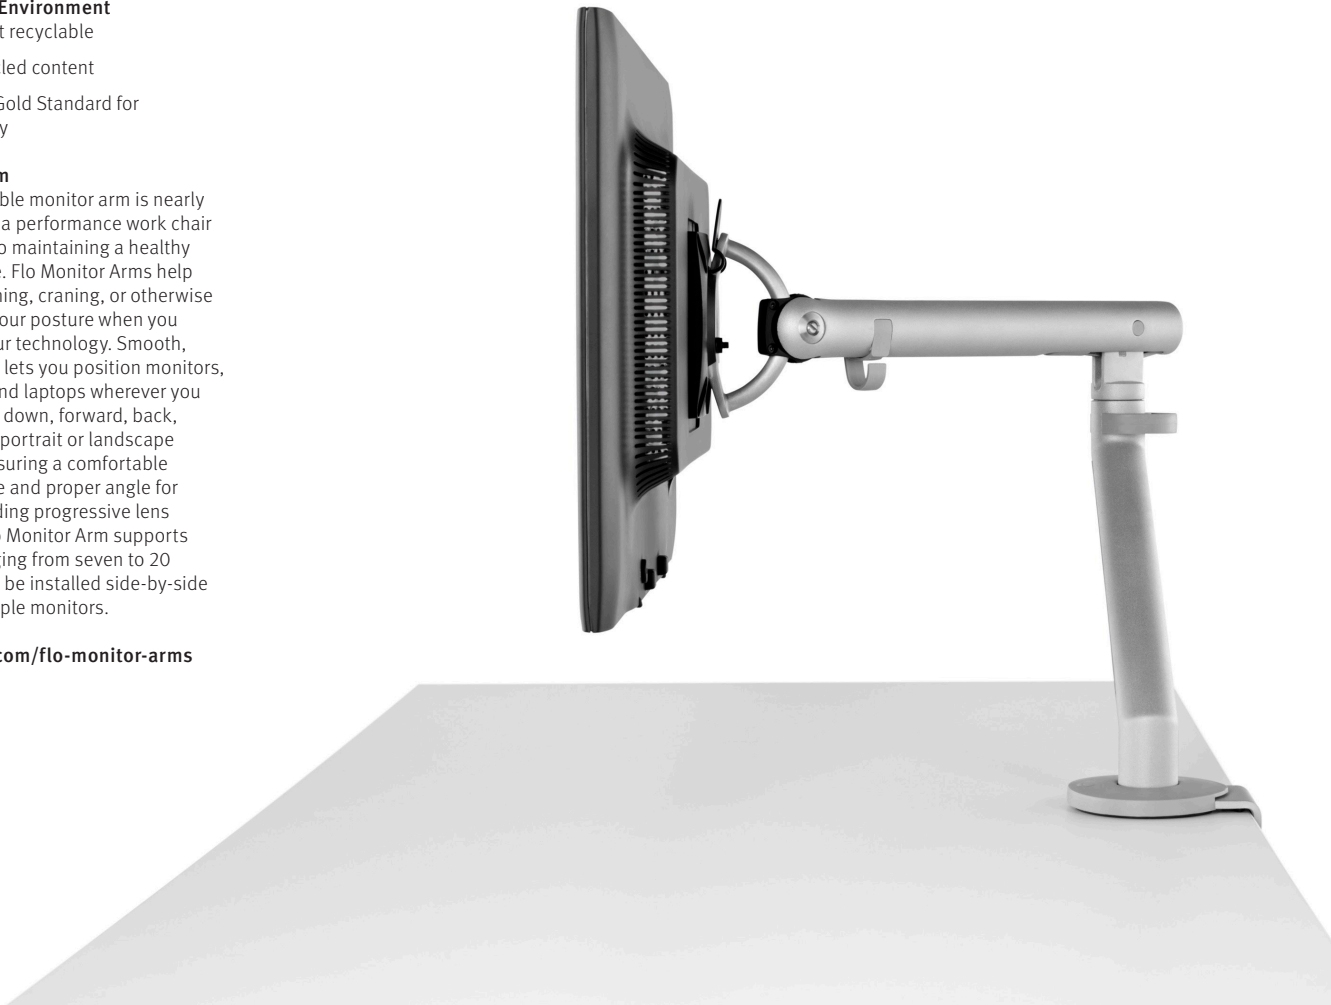

75 percent recycled content

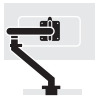

GREENGUARD® Gold Standard for indoor air quality

### Flo Monitor Arm

A highly adjustable monitor arm is nearly as important as a performance work chair when it comes to maintaining a healthy working posture. Flo Monitor Arms help you avoid hunching, craning, or otherwise compromising your posture when you interact with your technology. Smooth, fingertip control lets you position monitors, touchscreens, and laptops wherever you need them—up, down, forward, back, or even tilted in portrait or landscape orientation—ensuring a comfortable viewing distance and proper angle for everyone, including progressive lens wearers. The Flo Monitor Arm supports technology ranging from seven to 20 pounds and can be installed side-by-side to support multiple monitors.
