Flo Plus Monitor Arm

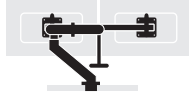

A heavy-duty version of the award-winning Flo monitor arm, Flo Plus offers smooth, intuitive adjustment of monitors or all-in-one computers ranging from 20 to 40 pounds. Nearly as important as a performance work chair when it comes to maintaining a healthy working posture, a Flo Plus Monitor Arm can help you avoid hunching, craning, or otherwise compromising your posture when you interact with your technology. Smooth, fingertip control lets you position monitors, touchscreens, laptops, and tablets wherever you need them—up, down, forward, back, or even tilted in portrait or landscape orientation—ensuring a comfortable viewing distance and proper angle for everyone, including progressive lens wearers. With Flo Plus Dual, you can also move two 24" monitors in tandem, and a simple converter lets you switch from Flo Plus to Flo Plus Dual and back again as your needs evolve.
