Logic Power Access Solutions

At Herman Miller, we believe that for people to do their best work, technology should be human-centered, easy to use, and seamlessly integrated throughout the workplace. Logic Power Access Solutions achieves this by fostering intuitive connections between people and technology. Its simple design blends into any surface and offers a consistent experience across the office landscape. Everything about Logic is exactly as it should be—so natural to use that you'll almost forget it's there.

Spaciously placed AC outlets alternate in orientation, accommodating a wide variety of plug styles and charger types.

Dual USB outlets with enough power to charge two tablets

Built-in cable keeper make connections available when needed

Under-mounted Cable Organizer keeps cable clutter out of sight and accessible above or below the surface

Available in three different sizes and six outlet orientations
