

HermanMiller Ollin™ Dual Monitor Arm

Designer

Colebrook Bosson Saunders

Ollin is easy to customize and adapt as work styles shift. You can attach a dual-screen mount to the main arm to enable moving two monitors horizontally and vertically, or tilting in tandem. The dual setup supports monitors up to 27 inches and weighing as much as eight pounds each. Accommodating two monitors with one arm maximizes the work surface and simplifies the equipment needed to create a comfortable visual experience.

Warranty

12-year, 3-shift
