Logic Mini

A compact addition to the Logic Power Access family, this electrical distributor offers a clean appearance and consistent user experience throughout the workplace. It can be configured with two simplex receptacles or one simplex receptacle and two USB charging ports. Outlets alternate in orientation to accommodate a variety of plug styles and charger types without blocking use of any of them. USB outlets are illuminated when powered, and the dual USB outlets can charge two tablets at once. Grommet mount, Metaform-specific furrow mount, and surface clamp options allow you to position the distributor wherever it's needed. Logic Mini is UL and cUL Listed.
