## LX Series Keyboard Support

### Designer

Knape & Vogt

An extended range of motion lets you place your keyboard at the ideal height and angle for your body whether you choose to work sitting, standing, or to move between both postures. With the largest arc of adjustability in our product line, the LX Series Keyboard Support can be locked anywhere from 8 ¼ inches above the track to 5 7/8 inches below it. A soft touch knob lets you tilt the support back or forward to maximize your comfort in a variety of postures. A torsion spring keeps the keyboard secure while moving up and down. The support swivels 360 degrees to store beneath the work surface. Meets or exceeds ANSI/BIFMA requirements.

### Warranty

12-year, 3-shift

Please visit [hermanmiller.com/warranty-terms](http://hermanmiller.com/warranty-terms) for details.
