Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 2, 2018, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

Spec-A-File

General Information

General Information

The Spec-A-File ordering procedure was designed to aid specifiers in meeting their exact filing needs. Since each component of the file (top, module, interior, base) is chosen individually, each file is a unique storage solution. The variety of top, module, and base heights available make the concern of meeting critical vertical heights a thing of the past.

Note: Metallic paints have an upcharge of \$65 when specified for the case, and \$10 when specified for the leg base.

Spec-A-File is comprised of the following four components. Each component must be clearly specified and priced separately.

Tops

Four heights are available ($\frac{1}{32}$ " , 1" , $1\frac{1}{4}$ " , $6\frac{1}{2}$ ") in finishes of baked enamel. Laminate and veneer tops are available in $1\frac{1}{4}$ " only. Veneer tops with oversail edge are $1\frac{1}{8}$ " .

Modules

Various modules are available in heights of $11\frac{3}{4}$ " , $13\frac{1}{8}$ " , $15\frac{1}{8}$ " , $17\frac{5}{8}$ " and $26\frac{1}{4}$ " .

Interiors

Several interior options are provided to meet your filing needs.

Bases

Five heights are available (1" , $1\frac{1}{2}$ " , $2\frac{1}{4}$ " , $3\frac{1}{4}$ " , $4\frac{1}{4}$ ") in finishes of baked enamel.

Locks

Flush locks.

Final Assembly

Meridian will assemble all components as a complete lateral file up to 78" . Files taller than 78" will be shipped as two units for final field assembly. Instructions are included.

Meridian® Stackable™ Lateral Files

Advanced Options

Spec-A-File

Add-On Modules

In order to accommodate additional filing needs, add-on modules are available for field installation to an existing lateral file. Modules do not have a base and can be ordered with or without a top. If a lock cylinder is needed, see lock appendix for ordering information. If the lock cylinder resides in the existing file, the add-on modules will need to be specified with lockbars.

Example: 26-3618-ADDON

Lock Option: LB-Lockbars, to attach to an existing unit

Reversed Modules

Reversed file drawers allow one stack of lateral file modules to service two users—conserving floor space. For safety reasons, only one direction reversal is allowed per file. The number of modules facing each direction is not limited.

Drawers are reversed in the field by utilizing a stile lock hardware kit for additional lock and a reversing conversion kit for additional inter-lock pieces. Kit number: U1B31V4

Factory-reversed units need to be ordered through Herman Miller Options.

Advanced Options

The flexibility and modularity of the stackable lateral file modules allow a specifier to create an infinite number of storage solutions.

To further enhance the uniqueness of the file, use one of the following advanced options available in Advanced Spec-A-File:

Multiple Locks – Standard Pull

Since the lock is housed in the module frame of standard pull lateral files, locks can be strategically placed to accommodate multiple users in one filing unit. In the case of keyed alike, identified modules will have factory-installed lockbars and lock hole knocked out to allow for field installation of lock cylinder. If additional security is required between drawers, specify security pans between modules.

Existing files can be retrofitted with multiple locks by requesting a stile lock hardware kit from your Customer Care representative.

Combination Lateral File

It is considered to be a combination lateral file when combining standard pull with bevel or contour pull lateral file drawers. To specify a combination unit, choose a bevel or contour pull lateral file in Advanced Spec-A-File. The standard pull modules will be listed on the module choices, signified by the following note (2600 Series).

Multiple Paints

Multiple paints are available on a single unit by specifying one of the following options:

F: Different case and front finishes
M: Different top, module, and base finishes
N: Unit all one color

Product Information

Description

This lateral file holds letter-, legal-, and A4-size hanging files. It has standard pulls and smooth or textured steel. The file has no top or a metal, cushion, laminate, planter, or veneer top. A positive interlock system permits only 1 drawer to open at a time. 1 lock controls all drawers. The drawers can be specified with 3 dividers or with front-to-back or side-to-side filing rails for hanging files. The 5-high lateral file has 4 drawers and 1 flipper door; the flipper door includes a pullout shelf with 3 movable dividers. 5 base heights are available; all bases include adjustable glides.

Actual lateral file widths are 29⁷/₈" , 35⁷/₈" , or 41⁷/₈" ; actual depths are 17⁷/₈" or 19⁷/₈" .

Notes

For 2- or 3-high files that are not ganged or anchored, counterweights (option CB) are required. For 4- or 5-high files that are not ganged or anchored, counterweights are recommended.

When alternate drawer interior (9P, 9R, or 9M) is specified for 5-high lateral file, pullout shelf still includes 3 movable dividers.

For base height option (LB2), legs will be shipped separately.

For base height option (LB2), overall height is 3¹/₂" consisting of 1¹/₂" tube base with 2" legs.

Dimensional illustrations do not include all possible configurations.

To convert filing direction, order 1 of the following products separately:

- Front-to-back rail (9Pxxxx)
- Side-to-side rail (9Rxxxxx)

See Stackable Lateral File Accessories for specific product number.

Order optional file drawer organizer (LG901) separately.

For work surface on top of 1 or more lateral files, order file top (TPL or TPV) separately.

For cushion tops TC1 and TC2, a 1" metal top is included.

Cushion top accepts Customer's Own Material (COM). Yardage is estimated for nondirectional, 54"-wide fabrics. When ordering more than 1 cushion, round up total yardage requirement to next whole yard of fabric.

Product Information

Description

This lateral file holds letter-, legal-, and A4-size hanging files. It has arc pulls and smooth or textured steel. The file has no top or a metal, cushion, laminate, planter, or veneer top. A positive interlock system permits only 1 drawer to open at a time. 1 lock controls all drawers. The drawers can be specified with 3 dividers or with front-to-back or side-to-side filing rails for hanging files. 5 base heights are available; all bases include adjustable glides.

Actual lateral file widths are $29\frac{7}{8}$ " , $35\frac{7}{8}$ " , or $41\frac{7}{8}$ " ; actual depths are $17\frac{7}{8}$ " or $19\frac{7}{8}$ " .

Notes

For 2- or 3-high files that are not ganged or anchored, counterweights (option CB) are required. For 4- or 5-high files that are not ganged or anchored, counterweights are recommended.

For base height option (LB2), legs will be shipped separately.

For base height option (LB2), overall height is $3\frac{1}{2}$ " consisting of $1\frac{1}{2}$ " tube base with 2" legs.

Dimensional illustrations do not include all possible configurations.

To convert filing direction, order 1 of the following products separately:

- Front-to-back rail (gPxxxx)
- Side-to-side rail (gRxxxx)

See Stackable Lateral File Accessories for specific product number.

Order optional file drawer organizer (LG901) separately.

For work surface on top of 1 or more lateral files, order file top (TPL or TPV) separately.

No lock option (NL) can only be specified on files with no top (NT), dome tops (D1, H1, or H2), planter top (T7), laminate tops (TL), or veneer top (TV1).

For cushion tops TC1 and TC2, a 1" metal top is included.

Grain direction is vertical for veneer-front lateral files.

Cushion top accepts Customer's Own Material (COM). Yardage is estimated for nondirectional, 54"-wide fabrics. When ordering more than 1 cushion, round up total yardage requirement to next whole yard of fabric.

Product Information

Description

This lateral file holds letter-, legal-, and A4-size hanging files. It has bevel pulls and smooth or textured steel. The file has no top or a metal, cushion, laminate, planter, or veneer top. A positive interlock system permits only 1 drawer to open at a time. 1 lock controls all drawers. The drawers can be specified with 3 dividers or with front-to-back or side-to-side filing rails for hanging files. 5 base heights are available; all bases include adjustable glides.

Actual lateral file widths are 29⁷/₈" , 35⁷/₈" , or 41⁷/₈" ; actual depths are 17⁷/₈" or 19⁷/₈" .

Notes

For 2- or 3-high files that are not ganged or anchored, counterweights (option CB) are required. For 4- or 5-high files that are not ganged or anchored, counterweights are recommended.

Dimensional illustrations do not include all possible configurations.

To convert filing direction, order 1 of the following products separately:

- Front-to-back rail (gPxxxx)
- Side-to-side rail (gRxxxx)

See Stackable Lateral File Accessories for specific product number.

Order optional file drawer organizer (LG901) separately.

For work surface on top of 1 or more lateral files, order file top (TPL or TPV) separately.

No lock option (NL) can only be specified on files with no top (NT), dome tops (D1, H1, or H2), planter top (T7), laminate tops (TL), or veneer top (TV1).

For cushion tops TC1 and TC2, a 1" metal top is included.

Cushion top accepts Customer's Own Material (COM). Yardage is estimated for nondirectional, 54"-wide fabrics. When ordering more than 1 cushion, round up total yardage requirement to next whole yard of fabric.

Width—Yardage

30" —1.05

36" —1.22

42" —1.40

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

For keyed-alike locks, order lock plugs separately. See Keyed-Alike Information in Appendices.

For 2- or 3-high files that are not ganged or anchored, counterweights (option CB) are required. For 4- or 5-high files that are not ganged or anchored, counterweights are recommended.

Dimensional illustrations do not include all possible configurations.

To convert filing direction, order 1 of the following products separately:

- Front-to-back rail (9Pxxxx)
- Side-to-side rail (9Rxxxx)

See Stackable Lateral File Accessories for specific product number.

Order optional file drawer organizer (LG901) separately.

For work surface on top of 1 or more lateral files, order file top (TPL or TPV) separately.

No lock option (NL) can only be specified on files with no top (NT), dome tops (D1, H1, or H2), planter top (T7), or laminate tops (TL). The (NL) option cannot be specified for configurations 4W and 4Z; these configurations always have a lock.

For configurations 4W and 4Z, a 1" filler top is included between the overhead storage and the drawers.

For cushion tops TC1 and TC2, a 1" metal top is included.

Cushion top accepts Customer's Own Material (COM). Yardage is estimated for nondirectional, 54"-wide fabrics. When ordering more than 1 cushion, round up total yardage requirement to next whole yard of fabric.

The drawers can be specified with 3 dividers or with front-to-back or side-to-side filing rails for hanging files. 5 base heights are available; all bases include adjustable glides.

Actual lateral file widths are $29\frac{7}{8}$ " , $35\frac{7}{8}$ " , or $41\frac{7}{8}$ " ; actual depths are $17\frac{7}{8}$ " or $19\frac{7}{8}$ " .

Vary Easy Program

Program Overview

Vary Easy is a program designed to help dealers specify standard products with a larger breadth of options. For example, depending on the type of product being specified, choices include additional size, finish, edge types, and cable management features. Vary Easy 3D, specIT, and third-party text-based specification packages support the Vary Easy program. Vary Easy 3D enables designers to create a 3D image, CAD symbols, and a price book page. A Vary Easy product number is assigned for each product as the user selects specific options. Once the product is completely specified, the order can be submitted via Kiosk's Order Manager or a dealer's business system.

Accessing and Specifying Vary Easy

To view the full product vocabulary, go to the Vary Easy Product Offering on Kiosk. To specify Vary Easy, go to the Vary Easy 3D website on Kiosk, specIT, or your third-party text-based specification package.

Once you've made your product line selection, continue to follow through each option and enter the specific options that represent the product you need. When the product is fully specified, Vary Easy will generate an orderable product number and instantly calculate a price.

Note: Failure to completely specify a product will cause a delay in order acknowledgements. Be sure to make a selection for all options offered.

The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead time and are competitively priced.

For more information, contact your Customer Care Line at (866) 854 3048 EXT 3400.

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

1. Select a COM/COL textile.
2. If your textile is not listed on Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, and the product you will apply it to.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

1. Refer to the specific products to determine the yardage required for COM/COL textiles.
2. If your textile is not listed on Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order. Yardage requirements are based on directional, 54"-wide textiles. Additional yardage may be needed due to the unique characteristics of a textile.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400
(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.
