2018

For the 11th consecutive year, Herman Miller received a perfect score on the Corporate Equality Index and we were designated as Best Place to Work for LGBT equality. This report evaluates U.S. companies in terms of diversity, particularly their LGBT-related policies and practices.

continued

2017

Herman Miller was named the 2017 "Corporation of the Year" in the consumer products sector by the Michigan Minority Supplier Development Council (MMSDC).

Herman Miller has received a 2017 SEAL (Sustainability, Environmental Achievement and Leadership) Business Sustainability Award.

Herman Miller has earned the 4 Star Diversity Visionary Award. This award celebrates the diversity, equality, and inclusion work of Herman Miller. The award is presented at the annual Diversity Equity Inclusion Summit, held by the Grand Rapids Area Chamber of Commerce.

Herman Miller named one of the Best and Brightest in Wellness for the fifth year in a row.

Working Mother magazine has recognized Herman Miller as one of the 2017 Working Mother 100 Best Companies.

Herman Miller earned our tenth consecutive perfect score in Human Rights Campaign (HRC) Foundation's 2017 Corporate Equality Index.

As one of the top-scoring companies in our industry for the thirteenth consecutive year, Herman Miller has qualified for inclusion in RobecoSAM's 2017 Sustainability Yearbook and received the Bronze Class distinction for our excellent economic, environmental, and social sustainability performance.

Herman Miller has once again earned the WorldatWork Seal of Distinction, a unique standard of excellence in work-life effectiveness that shows we provide a distinct, mutually beneficial workplace experience.

2016

Herman Miller was recognized as the Business of the Year at the Annual Meeting of the West Michigan Environmental Action Council (WMEAC). This award goes to the business with the greatest depth and breadth of support, unwavering dedication to environmental action in West Michigan, and a strong corporate commitment to environmental advocacy.

The 101 Best and Brightest Sustainable Companies once again (fifth consecutive year) recognized Herman Miller as an organization in Michigan (and for the first time, in the nation) that exhibits leadership and innovation in its approach to sustainability.

Herman Miller has been recognized by the Michigan Minority Supplier Development Council (MMSDC), as a "Corporation of the Year", and we also received a "2016 Excellence in Supplier Diversity Award" from the Great Lakes Women's Business Council. Additionally, we are the only West Michigan company this year to receive an "Ambassadors Championing Excellence" Award from the MMSDC.

Plex Lounge Furniture from Herman Miller receives #MetropolisLikes award at NeoCon 2016.

Plex Lounge Furniture from Herman Miller receives Interior Design HiP Award for Workplace Seating/Lounge at NeoCon 2016.

Spot Stools from Herman Miller Collection receive Interior Design HiP Award for Hospitality Seating at NeoCon 2016.

Herman Miller has been named a 2020 Women on Boards Winning Company. Companies selected for this recognition are considered champions of board diversity as 20 percent or more of their board seats are occupied by women.

Herman Miller selected for inclusion in the 2016 RobecoSAM Sustainability Yearbook for twelfth consecutive year.

Herman Miller again earns the WorldatWork Work-Life 2016 Seal of Distinction. This award identifies organizations that focus on programs that promote work-life balance and overall well-being.

2015

Herman Miller earns ninth consecutive perfect score in Human Rights Campaign (HRC) Foundation's 2016 Corporate Equality Index and we were designated as Best Place to Work for LGBT equality.

This is the fourth consecutive year that Herman Miller was named one of Michigan's Best and Brightest Sustainable Companies.

Herman Miller has received the Best and Brightest in Wellness Award for the third year in a row. This program is an innovative initiative that recognizes and celebrates quality and excellence in health awareness.

Herman Miller received the Forest Stewardship Council (FSC) Leadership Award for longstanding commitment to manufacturing with wood sourced from responsibly managed forests, which reduces environmental impacts by protecting against deforestation and forest degradation.

Herman Miller accepted its second Excellence in Reusable Packaging Award from the Reusable Packaging Association.

Herman Miller has once again been recognized for its commitment to best-in-class economic, environmental, and societal sustainability, earning a spot on the prestigious Dow Jones Sustainability Index (DJSI) for the twelfth consecutive year. We are the only contract furniture company recognized globally for its corporate sustainability leadership.

Herman Miller selected for inclusion in the 2015 RobecoSAM Sustainability Yearbook; awarded Bronze Class distinction for excellent sustainability performance for the second consecutive year.

HermanMiller for Government April 2018

continued

Herman Miller received a Michigan Business Pollution Prevention (MBP3) Certificate – a recognition given by the Michigan Department of Environmental Quality (MDEQ) to organizations committed to environmental stewardship, conservation, and sustainable operations. This basic partnership with the MDEQ, which we've maintained since 1998, makes us eligible for our Clean Corporate Citizen (CCC) status that began in 2004 and our Environmental Leader status, which we received for the first time this past year.

MedAssets named Herman Miller Healthcare as Platinum Suppliers. MedAssets, a large group purchasing organization, helps providers enhance operational and financial performance so they can sustainably serve the needs of their community.

Herman Miller honored with five of 20 spots for the Michigan Environmental Leaders Award by the Michigan Department of Environmental Quality for our outstanding, voluntary environmental stewardship.

Renew Sit-to-Stand tables recognized on Record Products 2014 list by Architectural Record.

Herman Miller was again awarded a perfect score in the 2015 Corporate Equality Index. This is the eighth consecutive year we received a perfect score.

2014

Herman Miller has received the Best and Brightest in Wellness Award for the second year in a row. This program is an innovative initiative that recognizes and celebrates quality and excellence in health awareness.

Herman Miller's Locale wins International Design Excellence Awards (IDEA) Gold in the Office & Productivity category.

Herman Miller achieves eleventh consecutive listing on Dow Jones Sustainability World Index, an international stock portfolio that evaluates the annual performance of the world's largest 2500 companies using economic, environmental, and social criteria, known as the "triple bottom line" of sustainability.

2013

Herman Miller achieves tenth consecutive listing on Dow Jones Sustainability World Index.

Herman Miller has received the Best and Brightest in Wellness Award. This program is an innovative initiative that recognizes and celebrates quality and excellence in health awareness.

Herman Miller Earns Perfect Score on the Corporate Equality Index. We are one of only 303 major U.S. businesses to receive a perfect score in 2013, an achievement we have now obtained seven years in a row.

Herman Miller is listed in Forbes Magazine inaugural "Platinum List" of America's 400 best managed, large companies.

For the second consecutive year, Herman Miller is honored as one of West Michigan's "101 Best and Brightest Sustainable Companies".

2012

Herman Miller accepted its first Excellence in Reusable Packaging Award from the Reusable Packaging Association.

Herman Miller is named "Corporation of the Year" in the commercial products sector by the Michigan Minority Supplier Development Council.

In July 2012 Herman Miller was inducted into the Made in the USA Hall of Fame. Herman Miller is one of only 20 companies across the nation to receive this distinction.

Herman Miller achieves ninth consecutive listing on Dow Jones Sustainability World Index.

Herman Miller is honored as one of West Michigan's 101 Best and Brightest Sustainable Companies.

The Sustainable Asset Management (SAM) group selected Herman Miller for inclusion in "The Sustainability Yearbook 2012" and has awarded Herman Miller both the "SAM Sector Leader" and "SAM Sector Mover" distinctions.

Herman Miller was named one of 16 Section Leaders on Climate Counts 2011-2012 Scorecard Report, making us the industry leader for Home and office Furnishings.

SGS International Certification Services, Inc., recognizes Herman Miller's manufacturing sites, Midwest Distribution Center, and Design Yard for initial certification to the OHSAS 18001 standard as well as re-certification to ISO 14001.

2011

Trust Across America, a company dedicated to unraveling the complexities of trustworthy business behavior, listed Herman Miller as one of their "Top Ten Most Trustworthy Companies in America 2011."

The U.S. Environmental Protection Agency (EPA) selected Herman Miller, as a WasteWise Gold Achievement—Climate Change winner.

Herman Miller achieves eighth consecutive listing on Dow Jones Sustainability World Index, an international stock portfolio that evaluates the annual performance of the world's largest 2500 companies using economic, environmental, and social criteria, known as the "triple bottom line" of sustainability.

The Michigan Minority Supplier Development Council (MMSDC) named Herman Miller as its "Corporation of the Year" in the commercial products sector. This was the fifth time Herman Miller has received this award since 2005.

continued

Herman Miller accepted its third Neighborhood Environmental Partners (NEP) award from the Michigan Department of Natural Resources and Environment.

Herman Miller receives the Reader's Choice award from TreeHugger's Best of Green: Design and Architecture category for the SAYL chair.

Herman Miller earns Citibank's Global Environmental Vendor of the Year award.

The SAYL chair from Herman Miller was dubbed the "Product Design of the Year" from the 2010 International Design Awards (IDA) jury.

Herman Miller Healthcare's Compass system was awarded a 2011 Medical Design Excellence Award (MDEA) for its research-based design and ability to be used in a variety of healing spaces, while simultaneously improving the overall delivery of healthcare.

The Sustainable Asset Management (SAM) Group selected Herman Miller for inclusion in the "Sustainability Yearbook 2011" and awarded us both the "SAM Sector Leader" and "SAM Sector Mover" distinctions.

Herman Miller has received the top rating for a fourth consecutive year in the Human Rights Campaign (HRC) Foundation's eighth annual Corporate Equality Index. The "Best Places to Work for LGBT Equality" distinction is awarded to businesses that scored 100% on the HRC Foundation's 2011 Corporate Equality Index.

Herman Miller again tops contract furniture industry in FORTUNE's 'Most Admired' Companies survey. For the 23rd time in 25 years.

2010

The NASDAQ OMX CRD Global Sustainability Index (QCRD) has included Herman Miller among their top 100 companies in the world.

Herman Miller achieves seventh consecutive listing on Dow Jones Sustainability World Index, an international stock portfolio that evaluates the annual performance of the world's largest 2500 companies using economic, environmental, and social criteria, known as the "triple bottom line" of sustainability. Herman Miller is one of approximately 300 companies worldwide and the only contract office furniture manufacturer, selected for this index.

Herman Miller has been recognized by Fast Company magazine as one of its 2010 Most Innovative Companies and among the more select Innovation All-Stars.

The U.S. Environmental Protection Agency's Office of Resource Conservation and Recovery has selected Herman Miller to receive the 2010 WasteWise Gold Achievement Award for Green Purchasing.

The Michigan Department of Natural Resources and Environment (MDNRE) has recognized Herman Miller's West Michigan manufacturing sites and Midwest Distribution Center as continuing Clean Corporate Citizens.

Herman Miller makes the U.S. Environmental Protection Agency's (EPA) list of the top fifty users of renewable electricity, of more than 1,200 organizations participating in the Green Power Partnership. This is the second consecutive time Herman Miller was recognized. Herman Miller was the only furniture manufacturer on the list.

Herman Miller accepted its second Neighborhood Environmental Partners (NEP) award from the Michigan Department of Natural Resources and Environment.

For the 22nd time in 24 years, Herman Miller was awarded the No. 1 industry ranking in a survey among the executives and board members of peer companies and independent industry analysts, as published in FORTUNE magazine's annual "Most Admired" companies feature.

The Michigan Department of Environmental Quality (MDEQ) recognizes Herman Miller's GreenHouse as one of Michigan's top environmental performers with a Clean Corporate Citizen (C3) longevity award. This recognizes that the GreenHouse has maintained its C3 designation for the past five years.

For the third year in a row, Herman Miller makes FORTUNE magazine's "100 Best Companies to Work For" list. Herman Miller is one of only three Michigan-based companies to make the list.

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 2, 2018, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www. Herman Miller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

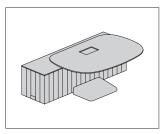

All products and options in this price book not designated by an Assigned Program icon A will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an A are on the assigned leadtime program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Desking Storage Screens and Display Accessories

Product Information

Description

This D-desk single is an individual work station with enclosed storage. The desk is oriented parallel to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the desk column. This option provides power routing to inside the Workbase for components located opposite the desk.

The desk surface is cantilevered off the Workbase, supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is ³/₄" (19mm) thick and is available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management tray is included. Tray finish matches desk understructure finish. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from user's side of the Workbase. Connecting hardware included.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See Planning Guide for more details.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches Workbase top finish.

Finished end cutout covers for laminate (M) Workbase match Workbase finish. For veneer (W) Workbases, finished end cutout covers match Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels at column location are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with $^{3}/_{4}$ " (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

When specifying Workbase screen (BRWBS.), specify Workbase

accessory cutout (S) to match.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate—Edgeband Color—Monitor Hole Grommet Cover Color Neutral Twill (LBF)—Sandstone (WL)—White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Earthen Twill (LBH) — Medium Tone (MT) — Graphite (G2)

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ) — White (91) — White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Steel Mesh (LBL) — Slate Grey (SG) — Graphite (G2)

Crisp Linen (LBM) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Classic Linen (LBN) — Sandstone (WL) — White (91)

Casual Linen (LBP) — Warm Grey Neutral (WN) — Graphite (G2)

Clear on Ash (LBA) — White (91) — White (91)

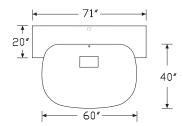

Oak on Ash (LBB) — Medium Tone (MT) — Graphite (G2)

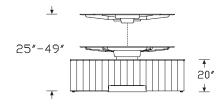

Walnut on Ash (LBC) — Medium Tone (MT) — Graphite (G2)

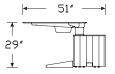

Order these products separately:

- Power entry (BREo1. or BREo2.)
- Power block (BREo3.)
- Power duplex (BREo4.)
- Power jumper (BREo₅.)
- Modular receptacle (BREo6.)
- Workbase screen (BRWBS.)
- Logic G1000 desktop power grommet (Y1425.C or Y1425.F) with plug end power cord option (A) or Logic G1200 nonpowered grommet pass thru (Y1420.V)

Product Information

Description

This D-desk double provides 2 individual work stations with enclosed storage. The desks are oriented parallel to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage. It has 2'' (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each desk. Storage compartments each have an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is $\frac{1}{2}''$ (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

Each desk surface is cantilevered off the Workbase, each supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest.

The desk is specified as fixed height at 29'' (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25'' (635mm) to 49'' (1244mm). Desk is 3/4'' (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management trays are included. Tray finishes match desk understructure finishes. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches Workbase top finish. Finished end cutout covers for laminate (M) Workbases match Workbase finish. For veneer (W) Workbases, finished end cutout covers match Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

When specifying Workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate — Edgeband Color — Monitor Hole Grommet Cover Color

Neutral Twill (LBF) — Sandstone (WL) — White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Earthen Twill (LBH) — Medium Tone (MT) — Graphite (G2)

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ) — White (91) — White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Steel Mesh (LBL)—Slate Grey (SG)—Graphite (G2)

Crisp Linen (LBM) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Classic Linen (LBN) — Sandstone (WL) — White (91)

Casual Linen (LBP) — Warm Grey Neutral (WN) — Graphite (G2)

Clear on Ash (LBA) — White (91) — White (91)

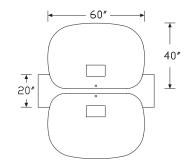

Oak on Ash (LBB) - Medium Tone (MT) - Graphite (G2)

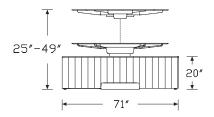

Walnut on Ash (LBC) — Medium Tone (MT) — Graphite (G2)

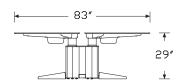

Order these products separately:

- Power entry (BREo1. or BREo2.)
- Power block (BREo3.)
- Power duplex (BREo4.)
- Power jumper (BREo5.)
- Modular receptacle (BREo6.)
- Workbase screen (BRWBS.)
- Logic G1000 desktop power grommet (Y1425.C or Y1425.F) with plug end power cord option (A) or Logic G1200 nonpowered grommet pass thru (Y1420.V)

Product Information

Description

This D-desk single with full display is an individual work station with enclosed storage and display that can be accessed from both sides. The desk is oriented parallel to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the desk column. This option provides power routing to inside the Workbase for components located opposite the desk.

The desk surface is cantilevered off the Workbase, supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest.

The desk is specified as fixed height at 29'' (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25'' (635mm) to 49'' (1244mm). Desk is 3/4'' (19mm) thick and is available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management tray is included. Tray finish matches desk understructure finish. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

Planning Guide for more details.

Mounting a monitor on the full display is not recommended and will interfere with height adjustability if mounted on the desk side.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from user's side of the Workbase. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the full display laminate finish.

Finished end cutout covers for laminate (M) Workbase match Workbase finish. For veneer (W) Workbases, finished end cutout covers match the full display laminate finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with ¾ (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate—Edgeband Color—Monitor Hole Grommet Cover Color Neutral Twill (LBF)—Sandstone (WL)—White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

 $Earthen\ Twill\ (LBH) - Medium\ Tone\ (MT) - Graphite\ (G2)$

Product Information

Description

This D-desk double with full display has 2 individual work stations with enclosed storage and display that can be accessed from both sides. The desks are oriented parallel to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each desk. Storage compartments each have an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

The desk surfaces are cantilevered off the Workbase, each supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desks have electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is $^{3}/_{4}$ " (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management trays are included. Tray finishes match desk understructure finishes. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

Mounting a monitor on the full display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the full display laminate finish.

Finished end cutout covers for laminate (M) Workbase match Workbase finish. For veneer (W) Workbases, finished end cutout covers match the full display laminate finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with ¾ (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

For Workbases with locks, and for electrical access at the Workbase top,

Product Information

Description

This L-desk single is an individual work station with enclosed storage. The desk is oriented perpendicular to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the desk column. This option provides power routing to inside the Workbase for components located opposite the desk.

The desk surface is supported by a column, specified at either end of the Workbase. It has a single outboard leg.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is 3\/4" (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management tray included. Tray finish matches desk understructure finish. A through-mount hole with grommet cover is provided on the desk surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Specify desk and finished ends based on the user's side desk located on the left or right of the Workbase. The dimensional illustration below shows a left oriented desk. Connecting hardware included.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See Planning Guide for more details.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbases, the interior finish matches exterior finish. For veneer (W) Workbases, the interior finish matches the Workbase top finish.

Finished end cutout covers for laminate (M) Workbases match the Workbase finish. For veneer (W) Workbases, finished end cutout covers match the Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) thick surfaces.

When specifying Workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate — Edgeband Color — Monitor Hole Grommet Cover Color

Neutral Twill (LBF) - Sandstone (WL) - White (91)

Sarum Twill (LBG)—Folkstone Grey (8Q)—Folkstone Grey (8Q)

Earthen Twill (LBH) — Medium Tone (MT) — Graphite (G2)

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ)—White (91)—White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Steel Mesh (LBL)—Slate Grey (SG)—Graphite (G2)

Crisp Linen (LBM) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Classic Linen (LBN) — Sandstone (WL) — White (91)

Casual Linen (LBP) — Warm Grey Neutral (WN) — Graphite (G2)

Clear on Ash (LBA) - White (91) - White (91)

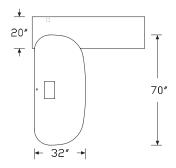

Oak on Ash (LBB) — Medium Tone (MT) — Graphite (G2)

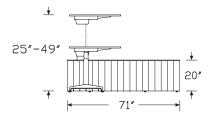

Walnut on Ash (LBC) — Medium Tone (MT) — Graphite (G2)

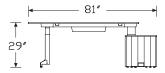

Order these products separately:

- Power entry (BREo1. or BREo2.)
- Power block (BREo3.)
- Power duplex (BREo₄.)
- Power jumper (BREo₅.)
- Modular receptacle (BREo6.)
- Workbase screen (BRWBS.)
- L-desk screen (BRLDS.)
- Bench cushion (BRBC.)
- Logic G1000 desktop power grommet (Y1425.C or Y1425.F) with plug end power cord option (A) or Logic G1200 nonpowered grommet pass thru (Y1420.V)

Product Information

Description

This L-desk double provides 2 individual work stations with enclosed storage. The desks are oriented perpendicular to the Workbase. The unit is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible by each user. Each storage compartment has an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

The desk surface is supported by a column, specified at either end of the Workbase. It has a single outboard leg.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is 3/4" (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management trays are included. Tray finishes match desk understructure finish. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the Workbase top finish. Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) thick surfaces. When specifying Workbase screen (BRWBS.), specify Workbase

When specifying Workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

 ${\tt Laminate-Edgeband\ Color-Monitor\ Hole\ Grommet\ Cover\ Color}$

Neutral Twill (LBF) — Sandstone (WL) — White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

 $Earthen\ Twill\ (LBH) - Medium\ Tone\ (MT) - Graphite\ (G2)$

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ)—White (91)—White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Description

This L-desk single with partial display is an individual work station with both open and enclosed storage and display that can be accessed from both sides. The desk is oriented perpendicular to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the desk column. This option provides power routing to inside the Workbase for components located opposite the desk.

The desk surface is supported by a column, specified at either end of the Workbase. It has a single outboard leg.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is 3/4" (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management tray included. Tray finish matches desk understructure finish. A through-mount hole with grommet cover is provided on the desk surface for monitor arm support.

The partial display unit is divided into 2 vertical sections and is handed with the display oriented on the desk end of the Workbase. The large display section has a center dividing panel and can hold a tackboard on either side. The smaller section has 3 fixed open shelves. The unit is available in laminate.

Notes

Mounting a monitor on the partial display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Specify desk and finished ends based on the user's side desk located on the left or right of the Workbase. The dimensional illustration below shows a left oriented desk. Connecting hardware included.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See Planning Guide for more details.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, the interior finish matches the laminate display finish.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate display finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with $\frac{3}{4}$ " (19mm) thick surfaces.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

 ${\tt Laminate-Edgeband\ Color-Monitor\ Hole\ Grommet\ Cover\ Color}$

Description

This L-desk double with partial display is 2 individual work stations with both open and enclosed storage and display that can be accessed from both sides. The desks are oriented perpendicular to the Workbase. The unit is freestanding or can be connected end to end with other Locale® modules.

The Workbase provides enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible by each user. Each storage compartment has an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. It is available in laminate or veneer. The Workbase top is 1/2" (13mm) thick, available in laminate

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

The desk surfaces are supported by columns on one end of the Workbase. Each has a single outboard leg.

The desk is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable desk has electrical height adjustment with an included control lever that can be mounted on the left or right. Desk surface height range is 25" (635mm) to 49" (1244mm). Desk is 3\/4" (19mm) thick and available in squared edge laminate or veneer, or thin edge Formcoat®. Desk surface has a cutout for user power components which must be ordered separately. Cable management trays are included. Tray finishes match desk understructure finish. A throughmount hole with grommet cover is provided on the desk surface for monitor arm support.

The partial display unit is divided into 2 vertical sections and is handed with the display oriented at the desk. The large display section has a center dividing panel and can hold a tackboard on either side. The smaller section has 3 fixed open shelves. The unit is available in laminate.

Notes

Mounting a monitor on the partial display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the Workbase top finish. Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) thick surfaces.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate — Edgeband Color — Monitor Hole Grommet Cover Color Neutral Twill (LBF) — Sandstone (WL) — White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Description

This T-peninsula single is a small group or individual work station with enclosed storage that can be accessed from both sides. The peninsula is centered on, and oriented perpendicular to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the peninsula column. This option provides power routing to inside the Workbase for components located opposite the peninsula.

The peninsula surface is supported by a column centered on the Workbase. It has a single outboard leg.

The peninsula is specified as fixed height at 29'' (736mm) high, or height adjustable. The adjustable peninsula has electrical height adjustment with an included control lever that can be mounted on the left or right. Peninsula surface height range is 25'' (635mm) to 49'' (1244mm). Peninsula is 3/4'' (19mm) thick and is available in squared edge laminate or veneer, or thin edge Formcoat®. Peninsula surface has a cutout for user power components which must be ordered separately. Cable management tray included. Tray finish matches peninsula understructure finish. A through-mount hole with grommet cover is provided on each peninsula surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the peninsula side of the Workbase. Connecting hardware included.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See Planning Guide for more details.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, the interior finish matches the Workbase top finish.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the Workbase top finish.

During installation, power and data cables are routed through the peninsula column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with ³/₄" (19mm) thick surfaces.

When specifying Workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

Step 1	3. Workbase Storage Option	
AJS	adjustable shelf A	+ \$0

Description

This T-peninsula double provides 2 small group or individual work stations with enclosed storage that can be accessed from both sides. The peninsula is centered on, and oriented perpendicular to the Workbase. It is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage. It has 2'' (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each peninsula. Each compartment has an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is $\frac{1}{2}''$ (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

Peninsula surfaces are supported by columns, each centered on the Workbase. Each has a single outboard leg.

The peninsula is specified as fixed height at 29" (736mm) high, or height adjustable. Adjustable peninsulas have electrical height adjustment with an included control lever that can be mounted on the left or right. Peninsula surface height range is 25" (635mm) to 49" (1244mm). Peninsulas are 3¼" (19mm) thick and are available in squared edge laminate or veneer, or thin edge Formcoat®. Each peninsula surface has a cutout for user power components which must be ordered separately. Cable management trays included. Tray finishes match peninsula understructure finish. A through-mount hole with grommet cover is provided on each peninsula surface for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For low-pressure laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the Workbase top finish.

Finished end cutout covers for laminate (M) Workbase match Workbase finish. For veneer (W) Workbase, finished end cutout covers match Workbase top finish.

During installation, power and data cables are routed through the peninsula column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with $^3/_4$ " (19mm) thick surfaces. When specifying Workbase screen (BRWBS.), specify Workbase

when specifying workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

 ${\tt Laminate-Edgeband\ Color-Monitor\ Hole\ Grommet\ Cover\ Color}$

AJS	adjustable shelf A	+ \$o

Description

This T-peninsula single with full display is a small group or individual work station with enclosed storage and display that can be accessed from both sides. The peninsula is centered on, and oriented perpendicular to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase has enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover. An optional Workbase top power access cutout with square grommet is available opposite the peninsula column. This option provides power routing to inside the Workbase for components located opposite the peninsula.

The peninsula surface is supported by a column centered on the Workbase. It has a single outboard leg.

The peninsula is specified as fixed height at 29" (736mm) high, or height adjustable. The adjustable peninsula has electrical height adjustment with an included control lever that can be mounted on the left or right. Peninsula surface height range is 25" (635mm) to 49" (1244mm). Peninsula is $\frac{3}{4}$ " (19mm) thick and is available in squared edge laminate or veneer, or thin edge Formcoat°. Peninsula surface has a cutout for user power components which must be ordered separately. Cable management tray included. Tray finish matches peninsula understructure finish. A through-mount hole with grommet cover is provided on each peninsula surface for monitor arm support. The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

Mounting a monitor on the full display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the peninsula side of the Workbase. Connecting hardware included.

Door swings can be specified to accommodate storage access direction. Choose the appropriate door swing based on desk orientation. See Planning Guide for more details.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, the interior finish matches the laminate full display finish.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate full display finish.

During installation, power and data cables are routed through the peninsula column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) thick surfaces.

For Workbases with locks, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate—Edgeband Color—Monitor Hole Grommet Cover Color Neutral Twill (LBF)—Sandstone (WL)—White (91)

Sarum Twill (LBG) - Folkstone Grey (8Q) - Folkstone Grey (8Q)

Earthen Twill (LBH) — Medium Tone (MT) — Graphite (G2)

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ)—White (91)—White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Steel Mesh (LBL) — Slate Grey (SG) — Graphite (G2)

Description

This T-peninsula double with full display provides 2 small group or individual work stations with enclosed storage and display that can be accessed from both sides. The peninsulas are centered on, and oriented perpendicular to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase provides enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each peninsula. Each compartment has an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is 1/2" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

Peninsula surfaces are supported by columns, each centered on the Workbase. Each has a single outboard leg.

The peninsula is specified as fixed height at 29" (736mm) high, or height adjustable. Adjustable peninsulas have electrical height adjustment with an included control lever that can be mounted on the left or right. Peninsula surface height range is 25" (635mm) to 49" (1244mm). Peninsulas are 3/4" (19mm) thick and are available in squared edge laminate or veneer, or thin edge Formcoat®. Each peninsula surface has a cutout for user power components which must be ordered separately. Cable management trays included. Tray finishes match peninsula understructure finish. A through-mount hole with grommet cover is provided on each peninsula surface for monitor arm support. The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

46

Mounting a monitor on the full display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Connecting hardware included.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches the laminate full display finish.

Finished end cutout covers for laminate (M) Workbase match Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate full display finish.

During installation, power and data cables are routed through the peninsula column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with 3/4" (19mm) or 1/2" (13mm) thick surfaces.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Description

This module combines a D-desk single work station and a T-peninsula single with enclosed storage. The D-desk is oriented parallel to the Workbase. The peninsula is centered on, and oriented perpendicular to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase provides enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each desk. Storage compartments each have an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The module is available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

The D-desk surface is cantilevered off the Workbase, supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest. The peninsula surface is supported by a column, centered on the Workbase. It has a single outboard leg.

The desk and peninsula are specified as fixed height at 29" (736mm) high, or height adjustable. Both the adjustable desk and adjustable peninsula have electrical height adjustment with an included control lever that can be mounted on the left or right. Desk and peninsula surface height ranges are 25" (635mm) to 49" (1244mm). Desk and peninsula are 3/4" (19mm) thick and are available in square edge laminate or veneer, or thin edge Formcoat®. Both surfaces have a cutout for user power components which must be ordered separately. The D-desk cutout accepts a 5-module desktop power unit, while the T-peninsula accepts a 3-module desktop power unit. Cable management trays are included. Tray finishes match understructure finishes. A through-mount hole with grommet cover is provided on both surfaces for monitor arm support.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the D-desk side of the Workbase. Connecting hardware included.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches Workbase top finish.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the Workbase top finish.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with ¾ (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

When specifying Workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate — Edgeband Color — Monitor Hole Grommet Cover Color Neutral Twill (LBF) — Sandstone (WL) — White (91)

Sarum Twill (LBG) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Earthen Twill (LBH) — Medium Tone (MT) — Graphite (G2)

Graphite Twill (LBJ) — Medium Tone (MT) — Graphite (G2)

White Twill (LBQ)—White (91)—White (91)

Pewter Mesh (LBK) — Warm Grey Neutral (WN) — Graphite (G2)

Steel Mesh (LBL) — Slate Grey (SG) — Graphite (G2)

Crisp Linen (LBM) — Folkstone Grey (8Q) — Folkstone Grey (8Q)

Classic Linen (LBN) — Sandstone (WL) — White (91)

Casual Linen (LBP) — Warm Grey Neutral (WN) — Graphite (G2)

Clear on Ash (LBA) — White (91) — White (91)

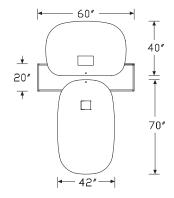

Oak on Ash (LBB) — Medium Tone (MT) — Graphite (G2)

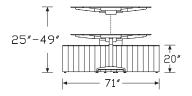

Walnut on Ash (LBC) — Medium Tone (MT) — Graphite (G2)

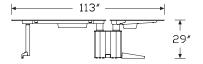

Order these products separately:

Description

This module combines a D-desk single work station and a T-peninsula single with enclosed storage and full display. The D-desk is oriented parallel to the Workbase. The peninsula is centered on, and oriented perpendicular to the Workbase. The module is freestanding or can be connected end to end with other Locale® modules.

The Workbase provides enclosed storage that can be accessed from both sides. It has 2" (51mm) leveling glides and contains 2 storage compartments, 1 accessible from the right side of each desk. Storage compartments each have an adjustable shelf and a removable bottom shelf for access to power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The module is available in laminate or veneer. The Workbase top is ½" (13mm) thick, available in laminate.

The Workbase is nonpowered. Modular power blocks, harnesses and receptacles must be ordered separately to power the unit and pass power to connecting modules. Hardwire options are available. A power pass-through cutout is on either end of the Workbase. Finished ends include a cutout cover.

The D-desk surface is cantilevered off the Workbase, supported by a column with outrigger supports at the floor. Outrigger supports have an ABS plastic cover which functions as a foot rest. The peninsula surface is supported by a column, centered on the Workbase. It has a single outboard leg.

The desk and peninsula are specified as fixed height at 29" (736mm) high, or height adjustable. Both the adjustable desk and adjustable peninsula have electrical height adjustment with an included control lever that can be mounted on the left or right. Desk and peninsula surface height ranges are 25" (635mm) to 49" (1244mm). Desk and peninsula are 3/4" (19mm) thick and are available in square edge laminate or veneer, or thin edge Formcoat®. Both surfaces have a cutout for user power components which must be ordered separately. The D-desk cutout accepts a 5-module desktop power unit, while the T-peninsula accepts a 3-module desktop power unit. Cable management trays are included. Tray finishes match understructure finishes. A through-mount hole with grommet cover is provided on both surfaces for monitor arm support.

The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

Mounting a monitor on the full display is not recommended and will interfere with height adjustability.

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the D-desk side of the Workbase. Connecting hardware included.

For laminate (M) Workbase, interior finish matches exterior finish. For veneer (W) Workbase, interior finish matches Workbase top finish. Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate full display.

During installation, power and data cables are routed through the desk column from the Workbase to the cable management tray. Workbase panels in front of column are removable for access.

Recommend Flo® single-screen monitor arm support with Locale through surface mount attachment bracket (Y91171.LOC), ordered separately.

Monitor arms must be compatible with ¾ (19mm) thick surfaces. Clamp mount arms cannot be mounted in center back of D-desk surface.

For Workbases with locks, and for electrical access at the Workbase top,

See Planning Guide for configurations and desk edge detail.

For laminate (L) desk top material, edge and grommet colors are predetermined:

Laminate — Edgeband Color — Monitor Hole Grommet Cover Color Neutral Twill (LBF) — Sandstone (WL) — White (91)

Description

This Workbase has enclosed storage that can be accessed from both sides. It is freestanding or can be connected end to end with other Locale™ modules. It has 2″ leveling glides. The Workbase has 3 sections; either 3 storage sections with adjustable shelves and removable bottom shelf for access to power and cable raceway, or 2 storage sections on either side of a center power section. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The panels are available in laminate or veneer. The Workbase top is ½″ (13mm) thick, available in laminate.

The Workbase provides power and data pass through only, or modular power capability. Finished ends include a cutout cover.

Motos

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the side of the Workbase with the most doors. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbases, the interior finish matches exterior finish. For veneer (W) Workbases, the interior finish matches the Workbase top finish.

Finished end cutout covers for laminate (M) Workbases match the Workbase finish. For veneer (W) Workbases, finished end cutout covers match the Workbase top finish.

Workbase top electrical cutout option (G) locates cutouts and grommets on either side of the center section. This option also enables a nonpowered Workbase to accept modular power components.

When specifying workbase screen (BRWBS.), specify Workbase accessory cutout (S) to match.

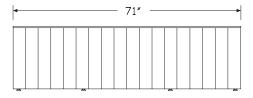

For Workbases with locks, contact Options.

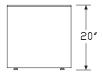

Order these products separately:

Description

This Workbase with upper shelving has both open and enclosed storage that can be accessed from both sides. It is freestanding or can be connected end to end with other Locale modules. The Workbase has 2'' (51mm) leveling glides and contains 3 storage compartments, each with an adjustable shelf and a removable bottom shelf for access to a power and data raceway. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The Workbase panels are available in laminate or veneer. The Workbase top is 1/2'' (13mm) thick, available in laminate.

The Workbase provides power and data routing. The finished ends include a cutout cover.

The upper shelving is divided into 3 sections vertically and horizontally: a middle vertical section with center divided panel, and 2 side sections with open shelving. All shelves are fixed. Available in laminate.

Notes

Exposed end of workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on workbase orientation and number of modules connecting together. Left and right specification is defined from the side of the Workbase with the most doors. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbases, the interior finish matches exterior finish. For veneer (W) Workbases, the interior finish matches the laminate upper shelving finish.

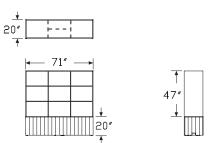

Finished end cutout covers for laminate (M) Workbases match the Workbase finish. For veneer (W) Workbases, finished end cutout covers match the laminate upper shelving finish.

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

Description

This Workbase with partial display has both open and enclosed storage that can be accessed from both sides. It is freestanding or can be connected end to end with other Locale™ modules. It has 2″ leveling glides. The Workbase has 3 sections; either 3 storage sections with adjustable shelves and removable bottom shelf for access to power and cable raceway, or 2 storage sections and 1 power section located at the end below the display unit. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The Workbase panels are available in laminate or veneer. The Workbase top is ¹/₂″ (13mm) thick, available in laminate.

The Workbase provides power and data pass through only, or modular power capability. Finished ends include a cutout cover.

The partial display unit is divided into 2 vertical sections and is handed. The large display section has a center dividing panel and can hold a tackboard on either side. The smaller section has 3 fixed open shelves. The unit is available in laminate.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on desired large display orientation, Workbase orientation and number of modules connecting together. Left and right specification is defined from the side of the Workbase with the most doors. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, the interior finish matches the laminate partial display finish.

Workbase top electrical cutout option (G) locates cutouts and grommets on either side of the display end section. This option also enables a nonpowered Workbase to accept modular power components.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate partial display finish.

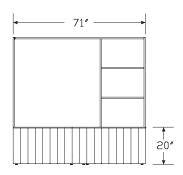

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

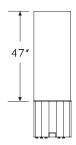

Order these products separately:

- Power entry (BREo1. or BREo2.)
- Power jumper (BREo5.)
- Display tackboard (BRTB.PD)

Locale® Price Book (4/18) HermanMiller for Government

graphite A

Description

This Workbase with full display has display and storage that can be accessed from both sides. It is a freestanding module or can be connected end to end with other Locale™ modules. It has 2″ leveling glides. The Workbase has 3 sections; either 3 storage sections with adjustable shelves and removable bottom shelf for access to power and cable raceway, or 2 storage sections on either side of a center power section. Doors have a push latch. The grooved panel exterior minimizes the appearance of individual doors. The Workbase panels are available in laminate or veneer. The Workbase top is ½″ (13mm) thick, available in laminate.

The Workbase provides power and data pass through only, or modular power capability. Finished ends include a cutout cover.

The full display unit has a center dividing panel and can hold a tackboard on either side. The unit is available in laminate.

Notes

Exposed end of Workbase must be finished. Unfinished ends have predrilled holes for connecting units together. Specify correct option based on Workbase orientation and number of modules connecting together. Left and right specification is defined from the side of the Workbase with the most doors. Connecting hardware included.

The wood grain for veneer Workbase panels is vertical.

For laminate (M) Workbase, the interior finish matches exterior finish. For veneer (W) Workbase, the interior finish matches the laminate full display finish.

Workbase top electrical cutout option (G) locates cutouts and grommets on either side of the center section. This option also enables a nonpowered Workbase to accept modular power components.

Finished end cutout covers for laminate (M) Workbase match the Workbase finish. For veneer (W) Workbase, finished end cutout covers match the laminate full display finish.

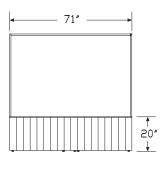

For Workbases with locks, and for electrical access at the Workbase top, contact Options.

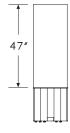

Order these products separately:

- Power entry (BREo1. or BREo2.)
- Power jumper (BREo₅.)
- Display tackboard (BRTB.FD)

Description

This screen provides a visual privacy for the Workbase. It mounts on the center of the Workbase and extends along the length of the Workbase. It comes in 2 heights, and is available with either tackable, fabric-covered surfaces or whiteboard. Mounting hardware included.

Notes

When ordering Workbase (BRWB.) or D-desk, L-desk, T-peninsula or ${\sf D}/{\sf T}$ combination modules, Workbase screen cutout option (S) must be specified.

Screen cannot be used with bench cushion (BRBC.) on the same Workbase.

For laminate (LL) screen material, edge colors are predetermined:

Laminate - Edge Color

Neutral Twill (LBF) — Sandstone (WL)

Sarum Twill (LBG) - Folkstone Grey (8Q)

Earthen Twill (LBH) - Medium Tone (MT)

Graphite Twill (LBJ) - Medium Tone (MT)

White Twill (LBQ) — White (91)

 $Pewter\ Mesh\ (LBK) - Warm\ Grey\ Neutral\ (WN)$

 ${\sf Steel \; Mesh \; (LBL) - Slate \; Grey \; (SG)}$

Crisp Linen (LBM) - Folkstone Grey (8Q)

Classic Linen (LBN) — Sandstone (WL)

Casual Linen (LBP) — Warm Grey Neutral (WN)

Clear on Ash (LBA) - White (91)

Oak on Ash (LBB) — Medium Tone (MT)

Walnut on Ash (LBC) — Medium Tone (MT)

Workbase screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

Product Information

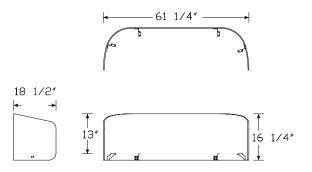

Description

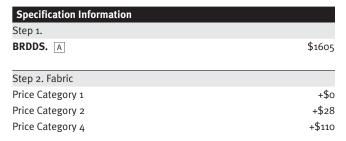

This screen provides visual privacy on a D-desk. It mounts to the desk using predrilled holes. It extends 13" above, and $2^3/4$ " below the desk surface, and projects forward 18 $^1/2$ " on either side of the surface. The screen comes in 2 pieces which attach together with ganging hardware to make a complete, double curved screen. It has a tackable interior surface with fabric on both sides. Mounting hardware included.

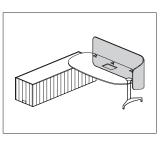

Notes

Mounting position provides an $^{11}/_{16}$ " gap between the screen and D-desk surface for cord routing. Attachment brackets support cord routing. D-desk screen is not compatible with Workbase screen (BRWBS.).

Dimensions

Description

This screen provides visual privacy to the L-desk. It is mounted to the desk using predrilled holes. It is $24^1/2''$ (625mm) high, extending $13^1/4''$ (337mm) above the desk surface and providing partial modesty of approximately 10'' (254mm) below the surface. It comes in left or right orientation, and has a tackable interior surface with fabric on both sides. Mounting hardware included.

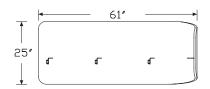

Notes

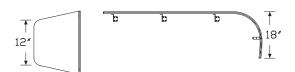

Specify screen orientation to match L-desk orientation.

Upon mounting, a $^5/_8$ " (17mm) gap is created between the screen and L-desk surface for cord routing.

The L-desk mounting hardware accommodates a standard US plug for cord routing.

Locale® Price Book (4/18)

Description

This monitor kit mounts inside the display section of a Locale® module with full or partial display. It supports a wall mount monitor bracket (supplied by others), creates an offset from the center spine of the display section, and has a cutout for monitor cord routing. Power is available through access to modular receptacles located in the Workbase. Cords route through the cutout concealed in the offset and down through a field-cut grommet in the top of the Workbase.

Notes

See planning guide for application details including mounting monitors on both sides of a display unit, modular power planning, cable routing and restrictions.

Display kit can be mounted on either side of a workbase with full display (BRWUF.) or Workbase with partial display (BRWUP.). 1 support kit can support monitors mounted on either side of the Workbase with full or partial display.

For desk modules with full or partial displays, the support kit mounts opposite a single sided D-, L-, or T- module (BRDSF., BRLSP., BRTSF.). Monitors cannot be mounted on the desk side of a height adjustable desk module.

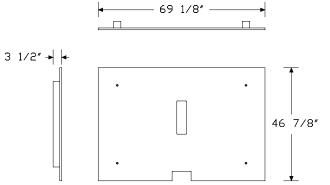

To cover both sides of the display unit, order Locale display tackboards (BRTB.) appropriate to the application. Specify a tackboard with monitor cutout option (MF or MP) where the monitor will be mounted.

For Workbases with full or partial displays, the Workbase top electrical cutout option (G) must be selected to support modular power components within the Workbase.

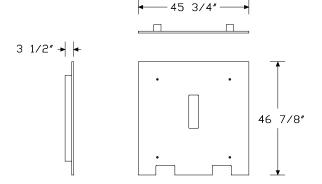

For desk modules, specify the desk top and Workbase top electrical cutout option (G).

See installation instructions for details about the field-cut cord grommet.

Product Information

Description

This 3-panel folding screen has fabric-covered tackable panels, fabric hinges, and a steel base. The folding end panels include adjustable disk glides allowing a user to set the angle of the side panels and adjust to level. The fabric hinge allows the end panels to fold around the center panel for relocation and storage. Hardware included.

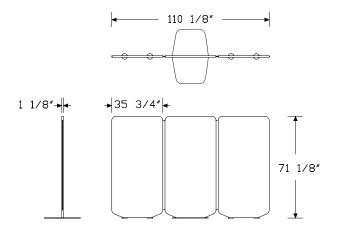

Notes

Recommended use is with side panels angled at 120° for space delineation.

Hinges and base are slate grey.

Freestanding screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics. Order 4.80 yards of fabric per screen. For information on multiple quantities or directional fabrics, contact COM department. See order information in appendices.

Description

This refreshment center serves as a storage element, a beverage center holder and a standing-height table. Open shelves provide storage on 1 side. Opposite the shelves is a large opening for a beverage or snack dispenser. A grommet at the back of the large opening supports the routing of power cords to building power outlets. The top has a power access grommet to route power cords from the surface top to the building power supply.

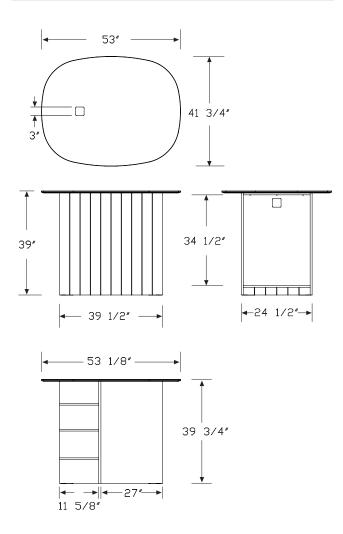

Notes

Unit is nonpowered.

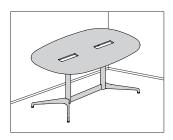

Under-counter opening has interior dimensions of 27 W x 25 $\frac{1}{2}$ D x 34⁵/₈"H.

For power integration, cable routing options and other custom accommodations, contact HermanMiller Options.

Product Information

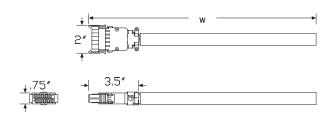

Description

This power entry connects a buildings electrical supply from a wall, floor, or column to the power block within a Workbase unit of a Locale® module. Available in either 8- or 10-wire modular power, it enters beneath or from the left or right end of a Locale Workbase unit. It includes a cable that can be field cut to the appropriate length. UL listed and Canadian UL listed.

Notes

A licensed electrician must wire power entry.

Modular Power Entry, New York BRE02.

Product Information

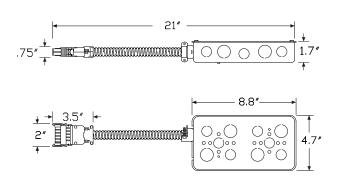

Description

This power entry connects a buildings electrical supply from a wall, floor, or column to the power block within a Workbase unit of a Locale® module. Available in either 8- or 10-wire modular power to meet New York City electrical codes. It includes a junction box and harness. The junction box is mounted inside the Workbase. Contractor-supplied conduit, wire, and fittings enter beneath or from the left or right end of a Locale Workbase unit. It includes a cable that can be field cut to the appropriate length. Power entry is UL listed and Canadian UL listed.

Notes

A licensed electrician must wire power entry.

Locale® Power

85

Product Information

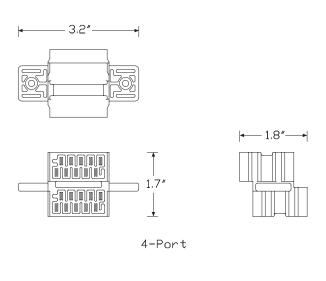

Description

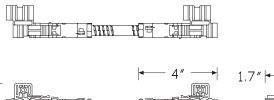

This power block connects modular power receptacles, jumpers, and power entry within a Locale® Workbase unit. The power block is specified with 4 or 8 ports and is available for either 8-wire or 10-wire. It mounts in the center portion of a Locale Workbase, or in the column section of a Locale Workbase desk module. UL listed and Canadian UL listed.

Notes

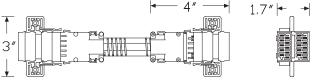

Specifying a 4-port power block provides ports for 2 duplex receptacles. The 8-port block is 2 4-port blocks connected by a short jumper, and provides ports for 4 duplex receptacles.

Product Information

Description

This jumper connects one power block to another to extend power through a run of Locale® Workbases. It is available for either 8-wire shared neutral, or 10-wire separate neutral configurations. UL listed and Canadian UL listed.

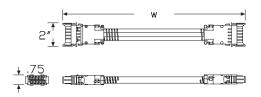

Notes

Jumpers connect both 4-port and 8-port power blocks except when the power blocks are in immediately adjacent Workbase sections. Specify 24"-wide jumper (00) to connect 4-port power blocks in adjacent Workbase sections. Specify 12"-wide jumper (10) to connect 8-port power blocks in adjacent Workbase sections.

Select the appropriate length jumper by measuring the distance between centerlines of the power blocks to be connected.

See Planning Guide for details on specifying power through Locale Workbases.

Product Information

Description

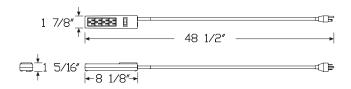

This corded power strip provides 4 receptacles for user accessible power within the cable management tray. It plugs directly into a power receptacle (BREo4.) in a Workbase and mounts in the cable management tray of a Locale™ desk. It is UL listed and CSA certified. Mounting hardware included.

Notes

To finish the work surface power access cutout, order the following products separately:

- Logic grommet mounted electrical distributor (Y1425.), or
- Logic grommet pass thru (Y1420.)

Logic G1000 Grommet Mounted Electrical Distributor

Product Information

Description

This Logic Power Access Solutions™ grommet mounted electrical distributor comes in several widths and configurations of simplex receptacles and USB charging ports. The unit is powered using a standard power cord with plug end, a hard-wired connection with electrical conduit, or an IEC connector when used with Renew™ Sit-to-Stand tables. An integrated cord keeper at the face of the unit captures data cords. The unit pivots from a closed position to 135° allowing easy access to power and data cords stored beneath the unit. Product is UL listed.

Notes

Field cutting of grommet cutout is possible.

IEC connector for Renew power type (C) includes short cord designed to connect to the Renew table power cord through-leg option. Actual cord length may vary.

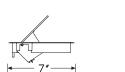

Simplex receptacles have alternating orientation and greater than normal plug spacing to accommodate most plug types.

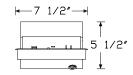

USB ports supply 10-watt power and will charge most small electronic devices. Software in each device controls that devices ability to accept a charge via USB.

Refer to Renew[™] Sit-to-Stand Tables and Locale[®] planning guides for specific application information.

20' cord/conduit length (20) is recommended for Exclave® applications.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon $\boxed{\mathbb{A}}$ will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an $\boxed{\mathbb{A}}$ are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Customer's Own Material/Customer's Own Leather Order Information — Seating

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Customer's Own Material/Customer's Own Leather

Program Overview

The Custome's Own Material (COM) and Custome's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Customer's Own Material/Customer's Own Leather Order Information — Seating

continued

Textile Approval

- 1. Select a COM/COL textile and a Herman Miller product.
- 2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, roll width, and the product you will apply it to.

Additional yardage may be needed due to the unique characteristics of a textile. All package labels must include the words "COM test" or "COL test" and the assigned COM/COL test number.

Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

- Refer to the specific products to determine the yardage required for COM/COL textiles.
- 2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order. Additional yardage may be needed due to the unique characteristics of a textile.
- 3. Enter your order on Order Manager in Omni.
- Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
- 5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

April 2017 HermanMiller for Government

Customer's Own Material/Customer's Own Leather Order Information — Seating

continued

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplies prices published at the time of the order.

Textile Approval

- 1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
- 2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

- 1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Milleis COM identification number
- 2. Enter your order on Order Manager in Omni.
- 3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400 (866) 854 3048 EXT 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

COM is not available on panels.

Textile Approval

- 1. Select a COM textile and a Herman Miller product.
- If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, and the product you will apply it to.
- Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Customer's Own Material Order Information — Workspaces

continued

Ordering Products with COM

- Refer to the specific products to determine the yardage required for COM textiles.
- If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order.
 - Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.
- 3. Enter your order on Order Manager in Omni.
- Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
- 5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplies prices published at the time of the order.

Appendix: Customer's Own Material Order Information — Workspaces

Customer's Own Material Order Information — Workspaces

continued

Textile Approval

- 1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
- 2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

- 1. Identify and include the following information on your purchase order:
 - · Product number and option
 - Herman Miller's COM identification number
- 2. Enter your order on Order Manager in Omni.
- 3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.
